- John Amick, PR&M
- Mary Coburn, DBLA
- Paul Berry, MHA
- Kelly Colopy, DHHS
- Mike Bustos, New York Life
- Jeff England, Camden

**Comments**

- Appreciate the transparency in the project (ability to see open streets)
- Need for restroom facilities
- Informational kiosk would be good
- Water features / drinking fountains
- Bike maintenance "we are a bike-friendly City"
- What about the use of water in a drought (grass area)?
- Safety issue for employees – adequate lighting
- Will commercial have venue for coffee/café?
- Retail food services accessible to park
- Fitness opportunities
- Possible 'mental health' services available for transition
- Assistance for homeless – where do they go for services?
- Good location for farmer's market
- Food trucks would bring competition to local restaurants – not advisable
- Community events in park to attract surrounding community as well as near-by residents
- Kraig Cogen: who would be responsible for maintenance and programming/activation of the park - developer, city or community?
  - Our response: we have some maintenance scope and will provide infrastructure, but need community partnership for activation
- Skate park or Rollerskating rink
